SUMMER CAMP 2024

WEEK 1

15th - 19th july

WEEK 2

22nd - 26th july

Dance Camp

5 to 12 years old

Every day, the students will have three dance lessons of various styles with a progression during the week. Different cultural activities are added to the daily schedule depending on the day and the weather. In order to help the students create connections beyond the classes, games, various workshops and crafts are organized. We also welcome guests from the arts and crafts community to diversify their learning experience.

There will be an informal demonstration on Fridays at 3:30 pm.

Dance Styles

Ballet

Formal and demanding technical style that develops turn-out and the precision of movements, especially of the feet.

Contemporary

Contemporary dance develops motor and expressive skills, both through contraction and relaxation, through ebb and flow, and finally through loss of balance and its recovery.

Hiphop

A popular dance class that teaches street and mainstream styles. This class develops coordination, rhythm and expression of personal style.

Jazz

A technical class that stands out for its style, execution and musicality. This style is based on the isolation of body parts and on more dynamic and direct movements.
